SCHOOL SAFETY PROGRAM OVERSIGHT COMMITTEE 1999 ANNUAL REPORT

MEMBERS:

Senator Tom Smith, Co-Chairman Representative Dan Schottel, Co-Chairman
Senator Joe Eddie Lopez Representative Marion Pickens
Ms. Helen Carter, Director of Community Services, Maricopa County Juvenile Probation
Dept.
Dr. Fred DePrez, Hamilton High School Principal, Chandler School District
Mr. Alberto Gutier, Director, Governor's Office of Highway Safety
Ms. Janet Lander, Violence Prevention Coordinator, Dept. of Education
Mr. Stan Morrow, law enforcement officer
Mr. William Udall, representative from the field of law-related education

ESTABLISHMENT:

The Joint Legislative Committee on School Safety (JLCSS) was originally established in Laws 1994, Chapter 201, Section 23. The JLCSS's charge was to review school district applications and select the applicants that were eligible to receive funding for participation in the School Safety Program (Program).

The School Safety Program was established pursuant to Laws 1994, Chapter 201, Section 25. The Program was continued by Laws 1995, Chapter 158, Section 5 and again by Laws 1996, Chapter 284, Section 74. These sections prescribed the method by which school districts applied to the Committee and defined the purpose and content of the program.

The Program was originally funded \$2,500,000, which was appropriated in Laws 1994, Chapter 201, Section 33. In the second year, Laws 1995, Chapter 158, Section 10 and Laws 1995, Chapter 1, Section 7 increased the funding to a total of \$5,000,000. Laws 1996, Fifth Special Session, Chapter 1 maintained the \$5,000,000 funding level.

In 1997, the program and its related legislation were repealed from session law and placed in permanent statute by Laws 1997, Chapter 220, Sections 78 and 103. The Joint Legislative Committee on School Safety was replaced by the School Safety Program Oversight Committee (Committee), which consisted of the same members. The committee's charge remained the same as the JLCSS's mission.

COMMITTEE CHARGE:

To provide a proactive approach to prevent juvenile referrals to the court system of the state and detention in the State Department of Juvenile Corrections, county jails and the State Department of Corrections.

REQUIREMENTS:

- Review the plans submitted by applicants for participation in the school safety program;
- Select sites that are eligible to receive funding based on school safety needs;
- Evaluate the program; and
- Submit a report to the Governor, the President of the Senate, the Speaker of the House of Representatives and the Joint Legislative Audit Committee by November 1, annually.

TERMINATION:

July 1, 2007

PUBLIC MEETINGS:

The Committee held three public meetings. Proceedings of these meetings were recorded for the public and minutes, attachments and tapes are on file in the Senate Resource Center.

June 24, 1999 (Minutes-Attachment D)

July 6, 1999 (Minutes-Attachment F)

July 12, 1999 (Minutes-Attachment H)

REPORT:

For the 1999-2000 school year, the Committee considered approximately 135 applications for the School Safety Program, which included 18 from new districts. The Committee approved 86 renewal/expansion applications and added 8 new districts to the program.

The Committee had \$7,561,409 in available funds. \$7,325,890 went to renewal grants and \$155,090 was allocated to new sites. After deducting \$70,000 for the State Department of Education's administrative costs, \$10,429 will be added to the grant money for the 2000-2001 school year.

ATTACHMENT
A

15-153 - School safety program oversight committee; membership; duties; staff; compensa..

15-153. School safety program oversight committee; membership; duties; staff; compensation; definition

A. The school safety program oversight committee is established consisting of the following members:

1. Two members of the senate who are from different political parties and who are appointed by the president of the senate. These members serve as advisory members. The president of the senate shall select one member to cochair the committee.
2. Two members of the house of representatives who are from different political parties and who are appointed by the speaker of the house of representatives. These members serve as advisory members. The speaker of the house of representatives shall select one member to cochair the committee.
3. The governor, or the governor's designee.
4. The superintendent of public instruction, or the superintendent's designee.
5. A law enforcement officer who is appointed by the speaker of the house of representatives.
6. A juvenile probation officer who is appointed by the chief justice of the supreme court.
7. A public school principal who is appointed by the superintendent of public instruction.
8. A representative from the field of law related education who is appointed by the governor.

B. Members serve at the pleasure of the appointing entity.

C. The committee shall review plans submitted by the applicants for participation in the school safety program and shall select sites that are eligible to receive funding based on school safety needs. The committee shall also review renewal applications from participating sites.

D. The committee shall evaluate the program and report annually to the president of the senate, the speaker of the house of representatives, the governor and the joint legislative audit committee by November 1.

E. For purposes of this section, "advisory member" means a member who advises the committee but who is not eligible to vote and is not a member for the purposes of determining a quorum.

15-154 - Public school safety program proposal; requirements; purpose; definitions

15-154. Public school safety program proposal; requirements; purpose; definitions

A. A public school district may apply to participate or may complete an application to continue in the school safety program as provided in this section for any fiscal year by submitting by April 15 a program proposal or an application to continue the program to the school safety program oversight committee. New applicants are restricted to unencumbered monies that have been appropriated in previous fiscal years or monies appropriated to expand the program. The program proposal shall contain:

1. A detailed description of the school safety needs of the public school or school district.
2. A plan for implementing a law related education program or a plan that demonstrates the existence of a law related education program as a school safety prevention strategy.
3. A plan to use trained school resource officers or juvenile probation officers in the schools, or both.

B. The state board of education shall administer the program in cooperation with the courts, law enforcement agencies and law related education providers. Representatives from the state board of education shall use relevant crime statistics and shall visit schools located in school districts that submit program proposals in order to verify the information contained in the program proposals.

C. The department of education, at the direction of the state board of education, shall distribute monies to the school districts whose plans have been approved by the school safety program oversight committee.

D. Any appropriations that are made to the department of education for the school safety program are exempt from the provisions of section 35-190 relating to the lapsing of appropriations. All monies that are not used for an approved school safety plan during the fiscal year for which the monies were appropriated revert to the department of education for distribution to the program in the following fiscal year.

E. Monies received by a school district under the program shall be spent to implement the approved plans.

F. For purposes of this section:

1. "Law related education" means interactive education to equip children and youth with knowledge and skills pertaining to the law, school safety and effective citizenship.
2. "Law related education program" means a program designed to provide children and youth with knowledge, skills and activities pertaining to the law and legal process and to promote law-abiding behavior with the purpose of preventing children and youth from engaging in delinquency or violence and enabling them to become productive citizens.

15-155 - School safety program; funding

15-155. School safety program; funding

A. The department of education shall cooperate with the county school superintendent, the county sheriff and the local chief of police to permit a law enforcement agency, with the consent of the school, to assign a peace officer to participate in the safe schools program in each school in the county. The cost of the peace officer is a state charge that is funded by the department of education.

B. In cooperation with the department of education and the county school superintendent and with the consent of the school, the presiding judge of the juvenile court may assign juvenile probation officers to participate in the safe schools program in each school in the county. The cost of juvenile probation officers is a state charge that is funded by the department of education.

ARIZONA STATE LEGISLATURE

Interim Meeting Notice Open to the Public

School Safety Program Oversight Committee

Date: Thursday, June 24, 1999

Time: 1:30 p.m.

Place: Senate Hearing Room 1

AGENDA

1. Introductory remarks
Co-chairs, Senator Tom Smith and Representative Dan Schottel
2. Review progress of Safe Schools Program
Janet Lander, Coordinator, Safe Schools Program, Arizona Department of Education
3. General discussion
 - Funding issues
 - Program applications
 - Program evaluations
 - Compliance issues
 - Utilization of officers
4. Assign sub-committees
5. Schedule future meeting(s)

MEMBERS:

Senator Tom Smith, Co-chair

Representative Dan Schottel, Co-chair

Senator Joe Eddie Lopez, Advisory Member

Representative Marion Pickens, Advisory Member

Hellen Carter, Maricopa County, Maricopa County Juvenile Probation Department

Alberto Gutier, Governor's Designee

Janet Lander, Arizona Department of Education, Superintendent's Designee

Stan Morrow, CID, City of Mesa

Ronald Poole, Desert Sands Middle School

William Udall, Governor's Designee from the field of law related education

Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting the Senate Secretary's Office; (602) 542-4231 (voice). Requests should be made as early as possible to allow time to arrange the accommodation.

ARIZONA STATE LEGISLATURE

SCHOOL SAFETY PROGRAM OVERSIGHT COMMITTEE

Minutes of the Meeting
Thursday, June 24, 1999
1:30 p.m. Senate Hearing Room #1

Members Present:

Senator Tom Smith, Cochair
Senator Joe Eddie Lopez
Hellen Carter

Alberto Gutier
Janet Lander
Stan Morrow

Members Excused:

Representative Dan Schottel, Cochair
Representative Marion Pickens

Ronald Poole
William Udall

Staff:

Kimberly Yee, Senate Research Analyst
Brian Lockery, Assistant House Research Analyst

Senator Smith called the meeting to order at 1:34 p.m., and attendance was noted. He noted the change of the title of the committee once again.

Opening Remarks

Senator Smith stated that when the program began in 1994, there was only enough money for one school semester. He said the primary purpose of the program is to place a police officer and/or a probation officer on the grounds of schools with the most incidents. The schools sent in applications, which were studied on a priority basis for authorized funding. The program's other purpose was to provide education for the police and probation officers and to install a Juvenile On-Line Tracking System (JOLT) system to communicate with the juvenile courts. Senator Smith stated he wanted to use the money for school resource officers (SRO) and probation officers (PO) on the school grounds. Many requests were received from the schools for everything from fencing to roofing, which were discarded.

He admitted there have been a few problems. Senator Smith noted personnel problems because of a lack of communication or reading the information supplied. He noted calls were made to the districts and corrections have been made. He stated one specific problem was when a request was made for a 10% increase in budget, and the officer was receiving only a 2% increase. When the school was questioned, the oversight was corrected. Senator Smith stated there must be continual communication between this

Committee and the schools districts.

Senator Smith said evaluations of the program have been excellent. When he visited the schools, he heard "raves" and was asked to keep the program alive. Police officers have told him they can identify the culprits who put the graffiti on the walls simply because they have gotten to know the youths who are involved in those things. Senator Smith cited another example of youths calling a policeman names when he first arrived on duty at a school, and two weeks later, the same youths were cleaning up a vacant lot on which to play baseball under the direction of the same policeman. Senator Smith stated that truancy has been reduced because an officer arrives at the home of the truant and asks why that child was not in school. He said that law-related education has also had a bearing on how the young people react to police and probation officers. The young people are taught what the laws actually do and eliminate hearsay.

Senator Smith said a proper evaluation program is necessary. Many school principals are reluctant to report the incidents at their schools because they are afraid it will go into a nation-wide computer and reflect poorly on their school. He indicated the Committee must come up with a better evaluation system, and it must be sure when it allocates funds for the program, the funding is used for the purpose for which it is intended. Some schools were using the money for other purposes rather than funding the police or probation officer and the program. Senator Smith stressed communication is a priority with the schools, and schools have two choices for being in the School Safety Program: 1) They must adhere to the purposes for which the funding is provided; or 2) they can opt out of the program and return the grant.

Senator Smith said he did not request an appropriation for the program this year, an error for which he takes full responsibility. He stated he would request money next year because the program is the best thing "we have had in a long while." Senator Smith observed that some people would like to see the program better publicized, but he feels that "muddies the water."

Senator Lopez said the Committee's origin is timely, and its efforts are not readily recognized. However, the importance of this Committee is magnified by the incidents that have taken place recently in schools throughout the country. He noted that Arizona started doing something about that danger four or five years ago. Senator Lopez commended Senator Smith for beginning the program and for his continuing efforts.

Review Progress of Safe Schools Program

Janet Lander called attention to the packet of information she provided to each member (Attachment A). Ms. Lander noted that part one of the packet offers program facts for the year ending June 30, 1998, and that there are 86 districts with 181 sites participating. She

stated the extra money from the previous year allowed the program to include eight new districts and six expansion sites. Ms. Lander noted the last page of part one lists the participating districts. The second part of the packet contains two sections: the first is the evaluation of the program for 1997-1998, which offers a general comparison of each school's program; the second section is a comparison of site violations for 1996-1998, which she noted is more objective type of data.

Senator Smith said the evaluation did not reflect the effectiveness of the program. Ms. Lander agreed and said that would be discussed later in the presentation. She continued explaining the components of the packet, and described the application in detail. Ms. Lander explained the list of applicants for FY 2000, how much money they need, and how little the program has. Ms. Lander said she also included the form used at site visits, of which 30 were done this year. She said the visits give the Committee an opportunity to see what the Safe Schools Program is about, and that some innovative programs had been discovered as well as some problems. Ms. Lander testified that site visits provide a valuable assessment of the program.

Senator Smith commented that it would take \$12 million, of which the program has \$7 million, to put every school that wants to be included on the program. Ms. Lander interjected that more than that would be needed. She explained that the schools know there is a limited amount of money, and that an additional appropriation was not received this year. They are not going to put in an application because they know the priority is to continue funding those schools on the Safe Schools Program. If an announcement were made that any school which wants to be included should submit an application, the program would be flooded with applications. She said she could not estimate how many millions of dollars it would take.

Hellen Carter stated she brought a video she would like the Committee to watch, which provides information on a few of the innovative programs found at some of the schools in Maricopa County. The film was produced by middle school students at Buckeye. Ms. Carter noted that a contingency group has been sent to Bosnia teaching law-related education and conflict negotiations to some of the United Nations members and teachers in Bosnia. [The video was viewed at this point.]

General Discussion

Funding Issues

Ms. Lander referred the Committee to the back page of the list of those schools that have applied this year which shows what each is requesting. She noted that State statutes require money to be given to those schools that are already on the program before new schools are added to the program. Ms. Lander said there is \$552,000 carry-over funding

from last year, and the Committee must determine how it is to be spent. She stated it is "soft money," which means that a set amount does not come back to the Department of Education each year, but changes. Ms. Lander noted that last year there was some underfunding to the districts and that Maricopa and Cochise counties have given raises to their PO. She added that the Arizona Bar Association is offering six more classes in law related education for SROs and POs. Heretofore, only one class has been offered. Ms. Lander stated the Committee must look closely at the line items for training and make sure there is enough money to send officers for the maximum training available, as this is the least expensive way for officers to be trained.

Senator Smith stated that when the program started, the commitment was made to continue to fund the program. He noted that some programs are funded only for a few years and just as they become successful, the funding is pulled. Senator Smith said that previously the unused money reverted to the General Fund, but now reverts to the program, and that \$552,000 should cover the increase of costs for the programs approved last year.

Ms. Lander replied it appears that the money will cover those costs. She added that some requests are not appropriate, and the Committee needs to review the renewal applications. She thought there would be some cuts in the requests.

Senator Smith said that matching money might be available from a couple of programs. Ms. Carter stated that the Maricopa Association of Governments (MAG) would put in its federal money. Receivership will be selected by MAG and will be based on those schools that have put in an application and could not be funded. She stated the Committee would know by July 12, 1999, if that funding comes through and what schools will be funded in Maricopa County.

Mr. Gutier asked if this money would be given to expansion schools if they have applied for the Safe School grant. Senator Smith replied if they have applied for a Safe Schools grant, it may be possible to use the MAG money. Ms. Carter reiterated the names were given to MAG and selections made from the list.

Senator Smith commented the \$552,000 from last year could be used for the increases in courses for schools in the program. Ms. Lander said if the money is used to cover the renewals, there may not be any left over to fund new programs and expansions. Senator Smith asked when the determinations would be made. Ms. Lander said she feels as soon as the evaluation subcommittee studies the requests the Committee will know whether there is money left over. Senator Lopez remarked that last year an initial evaluation was done so that when the subcommittee convened it could focus on areas of contention.

Senator Smith appointed Hellen Carter and Janet Lander to serve on the Evaluation Subcommittee. They stated they could make their evaluations by the middle of next week.

Mr. Gutier questioned if, under existing statute, the Committee can do renewals and some expansions. Ms. Lander replied the statute says that new sites may be added only after the existing schools have been given priority funding from the program. She stated she has done the preliminary review of applications and does not see much money being cut from those budgets. Ms. Lander said she did not see that much, if any, money which could be put into new or expansion sites. She said she felt if they were added the Committee could be putting itself into an awkward position next year because it may not get \$500,000 from this year's program.

Mr. Gutier stated that last year the Committee recommended a funding level. He thought he remembered a report which would give leeway to get some of the needy schools being funded.

Ms. Carter stated if Mr. Gutier was suggesting looking at the renewals, and cutting officers from them, it would be a drastic mistake. She said the commitment was made to them and unless they have a drastic rules violation, she thought it would destroy the intent of the program established in 1994. She stated that the \$552,000 is very "soft," and there is no guarantee it will be there next year to enhance the current budget. Ms. Carter said if the legislature could get additional money that money would be covered, and expansion schools could be added.

Senator Smith suggested the applications be reviewed, apply the \$552,000 to the needs of the schools under contract, and find out if any additional money is left. If there is money available, another school will be considered; if not, the situation will remain as is. He reiterated his commitment to seek an appropriation of \$1 million next year.

Program Applications

Ms. Lander said Committee has learned more every year about how to structure the application better so that schools understand the intent of this program. She has included law-related education, and elements of effective law-related education. She noted she added a cooperative agreement signature page to the application because she wanted to make sure the local law enforcement knows what the budget is, that law-related education is a part of that, and that each party understands its responsibility. She remarked she changed some questions on the site questionnaires to determine the number of hours a week officers are in the classroom, and how many students they connect with. Ms. Lander said some officers are actually being involved in some things they should not be involved in. For new and expansion questionnaires, it must be determined what support the schools

will provide. She said it has never been the Committee's intention to totally support the Safe School Program.

Ms. Lander stated another area to expand is that of evaluating programs and receiving measurable objectives from them. The objectives that show changes in behavior, both increases and decreases, can be tracked to show what the program has done. She felt further revision could still be done.

Senator Smith said originally there were to be two subcommittees, one to study the evaluations, which would come up with recommendations for the program, and the second to develop a cover letter which goes with the grant application which details what is expected of them. He felt the one subcommittee could cover both functions. Senator Smith said he thinks the subcommittee can review the present applications, and see if the letter accompanying the grant coincides with the application letter so that they all work in harmony. He stated that subcommittee will develop the covering letter to go with the grant which will explain to people the responsibilities and usage of the SRO and PO in the school.

Senator Smith appointed Stan Morrow and Hellen Carter to that subcommittee.

Program Evaluations

Senator Smith appointed Alberto Gutier and Janet Lander to a subcommittee to develop a better evaluation program. Senator Smith suggested the subcommittee review other types of evaluations, but aim specifically for this program. Mr. Gutier asked how extensive Senator Smith wished the evaluation to be. Senator Smith said he would like a combination form, with questions that can be answered yes or no, but with room for a narrative as to why the school needs the program. Mr. Gutier suggested problem identification, and developing the form from there. Senator Smith suggested tying it into violations and incidents. He remembered that originally a statement was included on students', parents' and staff attitudes toward safety after the program was instituted at the school.

Mr. Gutier recalled that Senator Smith had made a statement that he would like to see the schools report certain incidents they do not want to report. He asked if the subcommittee should look into that area so that it can get more accurate information.

Senator Smith replied he felt the schools would not be reluctant to report incidents if they know how the information is going to be used. If it is going on the Internet for everyone to see, the schools are not going to report it. He felt if it is used specifically for the Safe Schools Program evaluation, they will be open and honest. Senator Smith suggested

when publishing the report, the Committee might use a number rather than a specific school's name.

Ms. Lander said there are people at the Department of Education who are involved in evaluations and can give the subcommittee some input on what a valid evaluation would look like.

Compliance Issues and Utilization of Officers

Ms. Lander added that some questions on the original questionnaire were invalid, such as the one asking if having a PO or SRO at the school has made a difference in safety. She noted that many schools have had a SRO or PO for five years and the students would not know whether it has made a difference because they have never been without an officer on campus. Senator Smith agreed, and added he would like a question asking whether the officer's presence has had an effect on truancy. He noted that some schools have had a decline in truancy due to the presence of an SRO. Ms. Lander stated that information is not being collected at the present time.

Ms. Carter said that one thing she and Ms. Lander found on site visits is that law-related education (LRE) is not being considered as an integral part of safe schools component. She said officers are seen as an arrest factor rather than one trying to work with the schools. Ms. Carter said some schools are using the SRO to supplant previous programs such as D.A.R.E., and it is really necessary to get these types of things under control. She said it needs to be spelled out because some schools were not offering a desk or chair for the officer.

Senator Smith suggested putting the mission of Safe Schools on the letter and how the Committee expects to accomplish it. He felt people need to be reminded of the mission because of changes in personnel. He said one thing the Committee must emphasize is that the officers are there to change attitudes and improve the safety of the school. If students think the officers are there to arrest people the communication will be lost. He added that when the program started most of the officers were volunteers.

Ms. Carter added that within the probation area the officers are volunteers, and are selected on the basis of their ability to interact with students and to have an understanding of the court system. She said the most viable programs are those which have volunteers.

Senator Smith suggested that communication between the schools should be developed to share the best programs with other schools, and that perhaps the newsletters of the schools could include that type of information.

Mr. Gutier asked how many reviews were conducted this year, and was advised that thirty had been conducted. Last year, there were only six because of a lack of personnel. Senator Smith stressed the schools on the program must be visited by the Committee members to see how well the programs are working. Ms. Lander advised the members that she would be happy to set up appointments and accompany them on their visits. Senator Smith committed to visiting three or four schools in November.

Senator Lopez stated he regularly visits the schools and will include the aspect of the School Safety Program in his discussions with the principals.

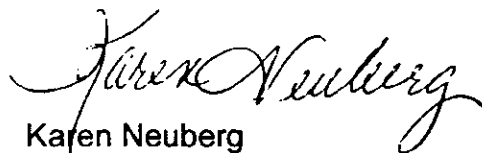

Discussion was held on possible dates for the next meeting, and July 6 at 10:00 a.m. was chosen.

Lynn Wiletsky, Juvenile Justice Services Division, Administrative Offices of the Court, spoke to the Committee about a partnership her division has entered into with the Arizona Bar Association to create a website for "kids." The site address is: www.lawforkids.org and is an opportunity for Safe School Officers to become involved with youth. Kids, parents and educators can utilize it. She said they have utilized several search engines and have had responses from places such as Singapore and London. Ms. Wiletsky said it gives information on the juvenile laws in Arizona, and there is also a "speak up" section where young people may come online. There are volunteer attorneys who answer the children's questions. Ms. Wiletsky said there are also links to libraries and the federal government, which may help young people with their homework. She invited the Committee members to try the site, and added that 6,000 brochures have been distributed and that posters will be placed strategically when school opens. Ms. Wiletsky also noted that personal stories which have been written by kids are on the site.

Senator Smith suggested this information be provided to the SROs and POs. Ms. Carter responded that this is being done and that the site is "truly a doggone cool website." She commended those who developed it in trying to link the different programs together so that each program is not duplicating the efforts of another.

There being no further business, the meeting was adjourned at 2:45 p.m.

Respectfully submitted,

Karen Neuberg
Committee Secretary

(Tapes and attachments on file in the Secretary of the Senate's Office.)

**Safe Schools Program
1999 – 2000 Application Instructions**

DEFINITIONS:

Renewal Site – Site which is currently receiving Safe Schools Program funding

Expanded Site – Site which district wishes to add to their Safe Schools Program

New Site – District has no sites on the Safe Schools Program

I. APPLICATION COVER PAGE:

Check if application is for renewal, expansion or new site(s).
Complete one (1) cover signature page for all renewal sites and one (1) for all new sites and one (1) for all expanded sites. Signature of authorized signer and district contact person must be provided.

II. SITE VIOLATIONS LIST:

Complete the *Site Violations* form using information from the 1997-98 CHAPPS for each renewal, expansion or new site.

III. OBJECTIVES FORM:

For each renewal, expansion or new site, list objectives on the chart provided. The objectives must be measurable outcome objectives. Refer to the enclosed information, *Guidelines for Writing Outcome Objectives*.

IV. SITE QUESTIONNAIRE:

Complete a *New/Expansion Site* or *Renewal Site Questionnaire* for each renewal, expanded or new site.

V. BUDGET FORMS:

Renewal, expanded or new site(s) budgets must be combined on one set of budget forms. DO NOT SUBMIT A SET OF BUDGET FORMS FOR EACH SITE. SUBMIT ONE (1) SET OF BUDGET FORMS FOR RENEWAL SITES, ONE (1) SET FOR EXPANDED AND ONE (1) SET FOR NEW SITE(S).

1. Budget Report

Section A – Complete #1, 2, 3, 5, 6 & 7

Section B – Refer to *Safe Schools Spending Guidelines*. Use line items #17 through #23 or #31 through #37. If the SRO/PO is considered an employee of the district, use the "Salary and Benefits" object codes. However, if the SRO/PO is an employee of the local

Application Instructions

-2-

enforcement agency, use the "Purchase Services" code and show the split of the salary and benefits on the *Budget Justification* page. Training and travel is shown in "Other Expenses". Complete line items #38 through #41. Line #39 may not be used as indirect costs are not deducted from State monies.

Section C: List payment schedule only on the September and January lines. Each payment will be ½ of the approved funding. The payment is made to the County Superintendent's business office.

Section D & E: For ADE use.

The *Budget Report* form reflects the total funding the district is requesting for renewal, expanded or new site(s).

2. Budget Justification – Provide a narrative description that breakouts the funding by function/object codes. Separate the salary and benefits of SRO/PO. Indicate the benefits included as some benefits are not approved expenses on the program. Break out costs by renewal, expanded or new site(s).
3. Capital Outlay Request – Describe each piece of equipment that has a total unit cost of \$300 and over. List purchase requests by renewal, expansion or new site(s).

VI. COOPERATIVE AGREEMENT SIGNATURE FORM:

Obtain the appropriate signatures of each entity that will involved in the Safe Schools Program at each site to acknowledge cooperation between the responsible parties: such as the county probation office, local police department, principal of the school and district superintendent.

SITE VIOLATIONS

"Safe schools are orderly and purposeful places where students and staff are free to learn and teach without the threat of physical, verbal or psychological harm. They are characterized by sensitivity and respect for all individuals, an environment of nonviolence, clear behavioral expectations, disciplinary policies that are consistently and fairly administered, students' affiliation and bonding to the school, support and recognition for positive behavior and a sense of community on the school campus. Safe schools also are characterized by proactive security procedures, established emergency response plans, timely maintenance, cleanliness and a nice appearance of the campus and classrooms."

List the number of the incidents below, which occurred at the site during the 1997-98 school year that violated the above definition of "Safe Schools". Data is available from the CHAPPS Report.

1. Number of gun violations: _____
2. Number of other weapon violations: _____
3. Number of violations concerning smokeless tobacco: _____
4. Number of violations concerning cigarettes: _____
5. Number of violations concerning alcohol: _____
6. Number of violations concerning marijuana: _____
7. Number of violations concerning other illicit drugs: _____
8. Number of violations concerning prescription or
over-the-counter drugs (including inhalants): _____
9. Number of violations resulting in charges being files: _____
10. Number of charges files that involved a weapon: _____
11. Number of students seriously injured on school grounds
as a result of violence: _____
12. Number of school personnel attacked or injured by students: _____
13. Number of incidents involving intimidation/bullying: _____
14. Number of incidents of vandalism/property damage/graffiti: _____

SAFE SCHOOLS PROGRAM OBJECTIVES
1999 - 20000

District: _____ Site: _____

Goal Statement : _____

Process Objective	Activities	Process Evaluation	Outcome Evaluation	Time Line
1. Truancy rate will decrease by 2% for the 7th grade.	Conduct LRE lessons in 7th grade on truancy. Send truancy policy home for guardian's signature. Make home visit to chronic offenders.	Collect and tabulate attendance records.	Increase in attendance.	By 6/30/2000
2. Increase the number of students knowledgeable about LRE by 10%.	Send ____# of teachers to LRE training. Send SRO/PO with teachers as a team approach.	Document the number of teachers sent to LRE workshops and dates . Document the number of students who received LRE.	Use pre and post test to determine the increase in student knowledge of the LRE lessons presented.	By 6/30/2000

District: _____

Site: _____

RENEWAL SITE QUESTIONNAIRE

For Renewal Sites Only – A site questionnaire must be completed for each renewal site for which the district is requesting continued funding.

1. How many hours a week does the SRO/PO spend in the classrooms involved in LRE?
☐ 0-2 Hours
☐ 3-5 Hours
☐ 6-8 Hours
☐ 9-11 Hours
☐ Over 11 Hours
2. How many weeks in each quarter did the SRO/PO teach LRE?
☐ 0 – 2 Weeks
☐ 3 – 5 Weeks
☐ 6 – 9 Weeks
3. What is the estimated number of students that received LRE in a quarter?

4. How are teachers involved in LRE? Check all that apply.
☐ Request SRO/PO to provide LRE in classroom
☐ Assist in teaching LRE
☐ Provide follow-up activities relating to LRE
☐ Are not involved in LRE
5. If any of the teachers had LRE training, where did they receive their training?
☐ Arizona Bar Foundation
☐ SRO/PO
☐ Other _____
6. Quality LRE requires a minimum of 40 contacts with students. Approximately how many students receive the recommended contacts per year? _____

Renewal Site Questionnaire

-2-

7. Which LRE programs are you providing?

- ☐ We the People
- ☐ INVEST
- ☐ Mock Trial
- ☐ Project Citizen
- ☐ Know What I'm Saying
- ☐ Other _____

8. Does the SRO/PO develop LRE lessons?

- ☐ Yes
- ☐ No

If yes, list subject areas taught:

9. Who is teaching LRE?

- ☐ SRO/PO Only
- ☐ Teacher and SRO/PO
- ☐ Teacher Only

10. What duties are the SRO/PO involved in? Check all that apply.

- ☐ Teach LRE
- ☐ Develop LRE lessons
- ☐ Train teachers in LRE
- ☐ Intervention activities
- ☐ Community outreach
- ☐ Truancy
- ☐ D.A.R.E.

Renewal Site Questionnaire

-3-

10. Cont

- ☐ G.R.E.A.T.
- ☐ Red Ribbon Week
- ☐ Advisory Committee Member
- ☐ Safe School Team Member
- ☐ After-school events/programs
- ☐ Intercession
- ☐ Officer Friendly
- ☐ Stranger Danger
- ☐ Assist in prevention programs such as CHAMPS
- ☐ Bicycle Safety
- ☐ Referrals to Social Service Agencies
- ☐ In-service Training
- ☐ Other _____

11. List your goal(s) from the 1997-98 application.

12. Did you meet your goal(s)?

☐ Yes

☐ No

If "no why? _____

13. List prevention strategies, other than the Safe Schools Program, used at the site to reduce violence.

District: _____

Site: _____

NEW OR EXPANDED SITE QUESTIONNAIRE

For New and Expansion Sites Only – A site questionnaire must be completed for each new or expansion site for which the district is requesting funding.

1. Which of the safety needs apply to this site? Check all that apply.

- ☐ Gun violations
- ☐ Weapon violations other than guns
- ☐ Smokeless tobacco
- ☐ Cigarettes
- ☐ Alcohol
- ☐ Marijuana
- ☐ Other drugs
- ☐ Prescriptions, over-the-counter drugs and/or inhalants
- ☐ Violent incidents
- ☐ Attacks on school personnel/students
- ☐ Intimidation/bullying
- ☐ Vandalism, property damage, and/or graffiti

2. What actions are presently being taken to address these safety needs?

3. How would having a SRO/PO on site enhance your existing program?

New/Expansion Site Questionnaire

-2-

4. If Law-Related Education (LRE), as defined by the LRE Guidelines enclosed, currently exists at the site, describe what is being done (do not discuss any other part of your prevention program, only LRE).

5. The Safe Schools Program is intended to provide seed money to fund a SRO/PO on campus, not to support the total program. What additional funding sources and/or in-kind contributions will the school contribute to the program?

6. How many officers are requested for this site?

SRO _____ PO _____

For expansion sites only:

Provide the number of officers at other sites and their funding sources. Use an additional sheet if necessary.

GUIDELINES FOR WRITING OUTCOME OBJECTIVES

1. Set a specific time by which you want the change to occur. Example: by the end of the term or by the end of the school year.
2. Write the outcome objective in terms of a specific target population. It is important to know who you want to experience the changes. Describe your target population with enough specifics that someone outside your program could identify who you were working with. Descriptors might include grade level, Location, general risk or problem characteristics and the number of participants. Example: 7th graders at a specific school, 100 students at xyz school with the highest absentee rates for 1998-99.
3. Determine the direction of the change: increase, decrease or maintain.
4. Describe the specific change you want the target population to achieve. It should be expressed as one of the knowledge, attitude or behavior areas and include specifics about the change. Example: 7th grades will have a decrease in their tardiness rate.
5. Describe the extent to which you want the target population to change. Set the percentage or unit of change by what can be reasonably achieved. Example: 7th graders will have a 2% decrease in tardiness by the end of the school year.
6. Measurements for change can include data that is already collected, such as school records or referral slips. The data used must fit the intended change. You may need to begin to collect the data necessary to measure your objective.

OUTCOME OBJECTIVE FORMULA

Using a specific format often helps write outcome objectives that are specific, measurable and therefore, can be evaluated. The basic components of the outcome objective formula are:

WHO:	Target population
WHAT:	Knowledge, attitude or behavior area to be affected
WHERE:	Increase, decrease or maintain
WHEN:	The date the objective will be achieved
HOW:	The data used to measure (evaluate) the outcome

Example: 7th grade students will show a 3% decrease in referrals to the principals office due to intimidation violations by June 30th as measured by number of incidents reports.

SAFE SCHOOLS PROGRAM SPENDING GUIDELINES 1999-2000

Approved Uses

- SRO/PO salary and benefits
- Law-related education (LRE) training
- Travel expenses related to LRE training
- LRE training materials
- Start-up materials & supplies (desk, chair, office supplies, etc. for first-time funded sites)
- 2% salary increase in salary if funding is available and site has been in the program two or more years
- Computer and hook-up for J.O.L.T. (only for PO)

Unapproved Uses

- Vehicles (purchased, leased cars, vans, buses, golf carts, motorcycles, etc.)
- Personal computers
- Cell phones
- Metal detectors/X-ray machines
- School lighting/fencing
- Locks/lock changes
- Student awards, incentives, t-shirts
- Any costs related to programs other than LRE, such as D.A.R.E and G.R.E.A.T
- Salaries and benefits for staff involved with the Safe Schools Program other than the SRO/PO
- Cost of substitute teacher for a teacher out for an LRE activity
- SRO/PO uniforms or cleaning costs for uniforms
- Indirect cost

Negotiable Items

- Lap-top computers
- Two-way radios
- Bicycles (only ½ the cost of "Police-authorized" bicycles)
- Items specific to district's program
- Overtime
- Out-of-state training and travel costs

LAW-RELATED EDUCATION GUIDELINES

LAW RELATED EDUCATION (LRE). . .WHAT IS IT?

Law-Related Education is the instruction about rules, laws, and the legal system which actively involves students in that instruction to prepare them for responsible citizenship. It is also instruction that teaches about legal rights, responsibilities and the role of the citizen and requires students to practice application of that teaching to potential real-life situations.

Adopted by the Arizona Center for Law-Related Education from the Virginia Institute for Law and Citizenship Studies.

WHY LAW-RELATED EDUCATION?

Law-Related Education required by Safe School legislation, but it also:

- Promotes critical, analytical and problem-solving skills.
- Actively involves students, teachers and the community.
- Increases students' knowledge base of the law, making them better informed citizens and consumers.
- Demonstrates constructive ways to resolve conflict and can reduce discipline problems in schools.
- Solicits and fosters community involvement.
- Discourages delinquent behavior.
- Promotes positive self-image in students.
- Encourages students to respect rules, laws and persons in authority when exposed to a "balanced view" of our democratic society.

DOES LAW-RELATED EDUCATION REDUCE DELINQUENCY?

Yes, if implemented correctly LRE can:

- increase knowledge of law
- encourage positive behavior
- reduce use of violence to solve problems
- improve school attitude
- improve likelihood of law-abiding behavior
- improve self-image

SIX ELEMENTS OF EFFECTIVE LAW-RELATED EDUCATION

1. **Adequate preparation and use of outside resource people**
Research shows when resource people such as SRO/POs are appropriately used in the classroom, there is a strong shift from delinquent to non-delinquent behavior in students and citizenship improves in most students. There are strong indications that this factor is more effective to improving peer associations than any other classroom practice or event.
2. **Quality instruction with a minimum of 40 contact hours per student**
Studies show that at least 40 hours of LRE instruction are necessary to change delinquent behavior to non-delinquent behavior. This can be done by integrating LRE into existing curriculum.

Quality instruction of an LRE lesson includes strategies such as providing students opportunities for practice, asking relevant questions to assess students understanding, telling students what they are about to learn and why, and establishing a mind-set for the students. Too much depth and detail can be confusing, frustrating and boring for students.
3. **Use of materials that present a balanced view of the legal system**
The primary purpose of providing students with a balanced view of the legal system is to foster a belief that laws are necessary and important for maintaining an orderly system and predictable society. The law should not be presented as being perfect and cannot be presented as totally imperfect.
4. **Active involvement of building administrators**
The most effective LRE classes appear to be located in schools where building administrators (principals in most cases) actively participate in providing classroom resources, facilitating field trips and dealing with concerns about LRE classes voiced by other teachers and members of the community. Administrators are the link to the governing board.

It is important that SROs and POs understand how they fit into the overall picture of effective LRE. In order for the officer and the teacher to form a lasting partnership the officer must be aware of the "whole picture."
5. **Use of small group instruction and interactive teaching strategies**
These methods increase students' ability to interact appropriately. Students work together toward a common goal, respecting the point of view of each other and developing higher levels of trust. When students are given the opportunity to actively participate in interactive groups, they tend to like school more than students that do not get the opportunity to work together.
6. **Professional peer support**
If a team of teachers or other professionals is trained in LRE there is a much greater chance of LRE remaining in the school. Having peer support gives the LRE teacher or the officers an opportunity to share experiences, plan lessons together and reduce the feelings of isolation.

Safe Schools Program

1. List sites on Safe Schools Program.

Site	#SRO	#PO	ADM

2. List site(s) reviewed.

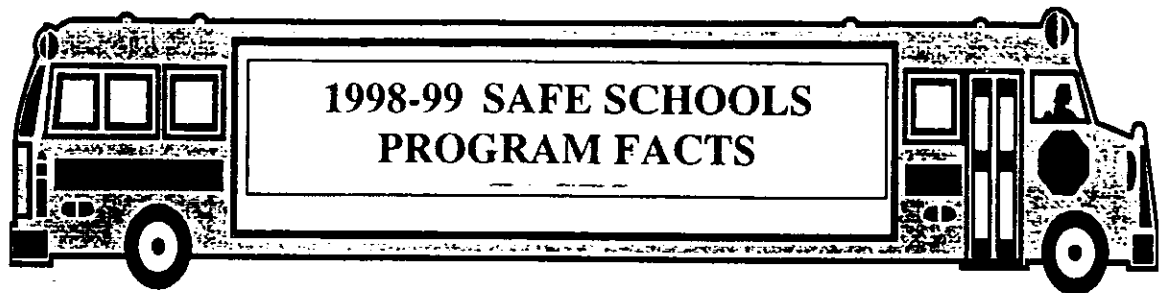

3. Describe the SRO/PO's job responsibilities at the reviewed site(s).

4. Describe the Law -Related Education component at the reviewed site(s).

5. Are the Safe School funds being spent at the reviewed site(s) as approved on the budget sheet?

6. Are goals included in the application being met?

7. Additional comments.

- **PARTICIPANTS:** 86 Districts, 181 Sites
- **BUDGET:** \$7 million
 - Priority #1: Salaries/benefits for hiring School Resource Officers (SRO) and/or Probation Officers (PO) for schools
95.5 SROs and 70 POs
 - Priority #2 Training for the officers and/or specific school staff in Law Related Education.
- **PURPOSE OF THE PROGRAM:** To hire Police Officers/Probation Officers for establishing positive interaction among students, staff and law enforcement. Officers should NOT be hired for the purpose of enforcement. These officers and the schools where they serve are encouraged to work together as a "team".
- **REQUIRED COMPONENT OF THE PROGRAM:** A commitment by the district to integrate or expand the Law-Related Education philosophy in their schools and to encourage "interactive" modules on citizenship, legal systems, government, etc., so students can participate in a process.
- **DISTRICT SELECTION:** It is the Legislative Committee for School Safety that makes the annual selection of districts and their funding level.
- **ADE RESPONSIBILITIES:** Administer the program in cooperation with the courts, law enforcement agencies and law related education providers. Site visits are conducted by ADE to verify the information contained in the program proposals. ADE distributes monies to the school districts approved by the oversight committee. ADE develops the annual application, collects and presents them to the committee for review, provides technical assistance to the grantees and produces an annual evaluation.

LAW-RELATED EDUCATION

- PROVIDES STUDENTS WITH THE SKILLS AND KNOWLEDGE PERTAINING TO:
 1. THE LAW AND LEGAL PROCESS
 2. TO PROMOTE LAW-ABIDING BEHAVIOR
- BENEFITS:
 1. REDUCES DISRUPTIVE ACTS ON CAMPUS
 2. REDUCES ACTS OF VIOLENCE
 3. ENABLES STUDENTS TO BECOME PRODUCTIVE CITIZENS

LEGISLATIVE MANDATE

In accordance with Senate Bill 1356, the Joint Legislative Committee on School Safety was created in 1994. The legislation provided dollars to be distributed among selected school districts. The funds are used to employ School Resource Officers (SROs) and/or Juvenile Probation Officers (POs) who provide Law-Related Education to students as a proactive approach to youth violence/crime prevention.

JOINT LEGISLATIVE COMMITTEE ON SCHOOL SAFETY (School Safety Program Oversight Committee)

Purpose: To provide a proactive approach to prevent juvenile referrals to the court system of the state and detention in the State Department of Juvenile Corrections, county jails and the State Department of Corrections by reviewing the plans submitted by applicants for participation in the school safety program; selecting sites that are eligible to receive funding based on school safety needs; evaluating the program and reporting annually to the President of the Senate, the Speaker of the House of Representatives, the Governor and the Joint Legislative Audit Committee.

COMPOSITION OF COMMITTEE

- Two advisory members from the House of Representatives, each from a different political party, appointed by the Speaker of the House of Representatives
- Two advisory members from the Senate, each from a different political party, appointed by the President of the Senate
- A representative from the field of Law-Related Education, appointed by the Governor
- A juvenile probation officer, appointed by the Chief Justice of the Supreme Court
- The Superintendent of Public Instruction or the Superintendent's designee
- The Governor or the governor's designee
- One member who is a law enforcement officer, appointed by the Speaker of the House of Representatives
- One member who is a public school principal, appointed by the Superintendent of Public Instruction

1997-1998 COMMITTEE MEMBERS

Representative Tom Smith, Co-chair	Lynne Dulin, Arizona Department of Education
Representative Marion Pickens	Alberto Gutier, Governor's designee
Senator Tom Freestone, Co-chair	Ron Poole, Desert Sands Middle School
Senator Joe Eddie Lopez	Stan Morrow, CID, Mesa
William Udall, Governor's LRE appointee	
Hellen Carter, Maricopa County Juvenile Probation Department	

1997-1998 FUNDING

\$6,000,000 was available to fund the Safe School Program in 1997-98. The program is to supplement, not supplant, existing funding provided by school districts. It is the intent of the program to provide seed money to initiate the program and that the school district contributes to the support and continued implementation of the Safe School Program. The program year begins July 1 and ends June 30th.

PROGRAM MANAGEMENT

The Arizona Department of Education (ADE) is charged with providing technical assistance and specialist support to districts and sites, in addition to the fiscal management of the program.

During the 1998 program year six (6) districts received Safe School Program reviews: Crane Elementary, Somerton Elementary, Wellton Elementary, Yuma Union High, Yuma Elementary and Gadsden School Districts. All districts were in compliance with program guidelines.

Program guidelines consists of:

- Providing law-related education
- Spending grant money for approved items
- Submitting the number of incidents on the Comprehensive Health and Prevention Programs Survey
- Completing the "Feeling of Safety" survey
- Completing the program completion report
- Returning unused funds to ADE from the previous program year

The Evaluation Areas of the Safe Schools Program:

1. Law-Related Education

Law-Related Education instructs youth about rules, laws and the legal system and actively involves students in that instruction in order to prepare them for responsible citizenship. It also teaches legal rights, responsibilities and the role of the citizen and requires students to practice application of that teaching in potential real-life situations.

2. Incident Reports

The number of unsafe incidents in schools are reported as part of the Comprehensive Health and Prevention Program Survey (CHAPPS). The Arizona Department of Research and Evaluation use *Rate Per Thousand*, or RPT, as the measurement to establish a baseline that can accurately compare larger school populations with smaller populations.

3. Feeling of Safety

All Safe Schools Program sites are required to survey students and staff using the following question and responses.

“Having a School Resource Officer and/or Probation Officer at my school has made the school a safer place.”

Respondents were to answer with strongly agree, agree, strongly disagree, disagree or no opinion.

LAW-RELATED EDUCATION

The benefits of law-related education:

- Promotes critical, analytical and problem-solving skills
- Actively involves students, teachers and the community
- Increases students' knowledge base of the law, making them better informed citizens and consumers
- Demonstrates constructive ways to resolve conflict and reduce discipline problems in schools
- Solicits and fosters community involvement
- Discourages delinquent behavior
- Promotes positive self-image in students
- Encourages students to respect rules, laws and persons in authority when exposed to a "balanced view" of our democratic society

Law-related education can reduce delinquency by:

- Increase knowledge of law
- Encourage positive behavior
- Reduce use of violence to solve problems
- Improve school attitude
- Improve likelihood of law-abiding behavior
- Improve self-image

The growth of the number of districts participating in the Safe Schools Program that provide Law-related education is illustrated in the chart below.

1995-1996	1996-1997	1997-1998
38 out of 61 districts	63 out of 64 districts	78 out of 78 districts

VIOLATIONS COMPARISON

A Rate Per Thousand (RPT) is used rather than a percentage because a percentage would inflate the incidence of violations in smaller schools. For example, if a small school with 30 students had 3 marijuana violations, the percentage of incidents per population would equal 10%. However, if this number is recalculated into a RPT, the number would be 100, meaning that if the school had 1000 students, the incidence of marijuana policy violations would occur among 100 students.

Chart 1, page 9, compares the total public school population in Arizona and further compares the incident rates between elementary, middle and high schools.

Chart 2, page 10, compares the incident rates for 1996, 1997 and 1998 between the Safe Schools Program sites and non-program sites. Although several categories of incidents are higher in Safe Schools sites, the reader must be careful how the data is interpreted. Safe Schools Program sites have officers on campuses who may be more aware of violations occurring than in schools with no officers present.

Some school officials are critical about making the incident data available to the public on the school report cards. Because they do not want their schools to appear "unsafe", some incidents may go unreported. Safe Schools Program sites are more likely to report all incidents because of the presence of an officer. Therefore, Safe Schools sites maybe doing a better job at reporting incidents than non-program sites.

Data on a specific district and/or site may be obtained by contacting the Arizona Department of Education, Research and Evaluation Unit.

¹ Fifteen Safe Schools (out of 145 sites) are missing from the following data because the schools did not return the appropriate forms necessary for inclusion in the incident summary.

² Five Safe Schools (out of 180 sites) are missing from the following data: 2 schools were not open during the 1997-98 school year, and three schools did not return the appropriate forms necessary for inclusion in the incident summary.

³ Rate per thousand students

⁴ The data collected for SY 96 in this category includes Inhalant use.

⁵ The numbers indicated in this category are the actual number of incidents. No RPT was computed for staff injuries.

FEELING OF SAFETY

Over 60% of students attending schools where a school resource officer or probation officer was on campus feel the presence of the officer has made the school a safer place.

Over 80% of staff working at schools where a school resource officer or probation officer was on campus feel the presence of the officer has made the school a safer place.

ARIZONA CRIMINAL JUSTICE COMMISSION
1997 School Substance Survey

The 1997 *School Substance Survey* is the seventh such survey administered by the Arizona Criminal Justice Commission since 1988. A total of 35 randomly selected public schools involving 13,157 students participated in the survey. Of those students, 4,556 were elementary students, 3,946 were middle school students and 4,655 were high school students.

The following data is of interest to the Safe Schools Program.

Days of schools missed due to feeling unsafe at, or on way to or from, school in last month

Elementary	Middle	High School
386	284	192

Number of times in a physical fight at school in last year

Elementary	Middle	High School
1346	1550	1475

Number of days weapon brought to school in the last month

Elementary	Middle	High School
336	696	917

Number of times threatened with weapon at school last year

Elementary	Middle	High School
538	792	769

Know someone who brought weapon to school

Elementary	Middle	High School
870	2407	3080

Know a gang member at school

Elementary	Middle	High School
1479	2278	2048

ARIZONA SAFE SCHOOLS PROGRAM

SITE VIOLATIONS COMPARISON 1996 – 1998

Supplementary information to the *1997-98 Safe Schools Program Evaluation Report*

DATA COLLECTION

The Safe Schools Program began its first full year of operation in 1996. At this time Safe Schools Program sites began reporting the number of violations that occurred on campus for the program year. The program year runs from July 1 through June 30.

Violations are reported on the *Comprehensive Health and Prevention Program Survey* (CHAPPS), a survey all schools receiving state and/or federal monies are required to submit. CHAPPS is due annually on June 30th to the Department of Education.

A Rate Per Thousand (RPT) is used rather than a percentage because a percentage would inflate the incidence of violations in small schools. For example, if a small school with 30 students had 3 marijuana violations, the percentage of incidents per population would equal 10%. However, if this number is recalculated into a RPT, the number would be 100, meaning that if the school had 1000 students, the incidence of marijuana policy violations would occur among 100 students. RPT allows schools to be compared with each other regardless of size.

The following charts compare violations for a three year period. NA denotes the information was not submitted. For further information concerning CHAPPS data contact Michelle Carter, 542-5151.

Violation or Event	1995-96 School Year		1996-97 School Year		1997-98 School Year

ARIZONA STATE LEGISLATURE

Interim Meeting Notice *Open to the Public*

School Safety Program Oversight Committee

Date: Tuesday, July 6, 1999
Time: 10:00 a.m.
Place: Senate Hearing Room 1

AGENDA

1. Introductory Remarks
Co-chairs Senator Tom Smith and Representative Dan Schottel
2. General discussion
Funding issues
Information sharing and innovative programs
3. Reports by sub-committees
Program evaluation (Alberto Gutier, Janet Lander)
Criteria development (Stan Morrow, Hellen Carter)
Application evaluation (Janet Lander, Hellen Carter)
4. Application review and committee vote
5. Schedule future meeting(s), if necessary

MEMBERS:

Senator Tom Smith, Co-chair
Senator Joe Eddie Lopez, Advisory Member

Representative Dan Schottel, Co-chair
Representative Marion Pickens, Advisory Member

Hellen Carter, Maricopa County, Maricopa County Juvenile Probation Department

Alberto Gutier, Governor's Designee

Janet Lander, Arizona Department of Education, Superintendent's Designee

Stan Morrow, CID, City of Mesa

William Udall, Governor's Designee from the field of law related education

Vacant – Public School Principal, Superintendent's Designee

Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting the Senate Secretary's Office: (602) 542-4231 (voice). Requests should be made as early as possible to allow time to arrange the accommodation.

ARIZONA STATE LEGISLATURE
SCHOOL SAFETY PROGRAM OVERSIGHT COMMITTEE

Minutes of the Meeting
Tuesday, July 6, 1999
10:00 a.m.
Senate Hearing Room #1

Members Present:

Senator Tom Smith, Cochair
Senator Joe Eddie Lopez
Hellen Carter
Alberto Gutier
Janet Lander

Representative Dan Schottel, Cochair
Representative Marion Pickens
Stan Morrow
William Udall

Members Excused:

Staff:

Kimberly Yee, Senate Research Analyst
Brian Lockery, Assistant House Research Analyst

Senator Smith called the meeting to order at 10:00 a.m. and attendance was taken.

Introductory Remarks

Senator Smith stated the purpose of the meeting is to determine the distribution of the grant and the \$500,000+ left from the previous budget, and to make sure it is sufficient to provide funding for School Resource Officers (SRO) and Probation Officers (PO) with the increases requested by schools on the program. He reiterated the concern expressed last meeting that schools were not using the funds for law-related education (LRE), but were instead financing programs such as D.A.R.E. Senator Smith reminded the Committee that a letter is being developed which will be sent to schools suggesting they follow the intent of the appropriation or that they not accept the funding. He also mentioned the evaluation process is being revised because current evaluations do not indicate the success of the program which is found when talking to the school staff. Senator Smith noted that principals are reluctant to put the extent of their problems on the computer for fear it will be seen nationwide, and that the evaluation must assure principals it will not be detrimental.

Representative Schottel stated it is his first meeting, and requested clarification of certain areas. He said he would like to look at the curriculum the SRO and PO are teaching to see

where it fits into the program. Representative Schottel questioned if the SRO and PO who teach should be certified, and mentioned he sponsored a bill last year which would have allowed the officers to be certified so that there would not be two "paid people" in the classroom at the same time. Representative Schottel stated the officers should be able to teach without a certified teacher present. He also stated concern about the difference in pay in districts with regard to time in office, experience and location. He wondered if there would be a problem with equal funding for equal districts.

Senator Smith stated that all locations have the curriculum for the LRE and all SROs are trained on the curriculum, and some of the funding goes for that training. Senator Smith noted the officers are hired by the police departments, and most have volunteered to be placed in that duty, which he feels is an advantage. He said that some school districts have money and pay for the program, sometimes a federal program pays for it, and occasionally the State can provide some funding through the Department of Education (ADE). Senator Smith noted the policemen are paid according to that department's salary schedule.

Ms. Carter confirmed Senator Smith's remarks, and said every county sets its rates for the probation department as well as its police departments. She noted the larger counties would have higher rates. Ms. Carter felt that to have everyone at the same rate would not be cost effective to the program, and if the rate were set at the lower scale, it would not accommodate the officers' pay for the larger metropolitan areas. Ms. Carter said the program is equitable because it reflects the needs of each district, and the costs are directly related to the officer's salary. She said the program meets the equitable standing required by the recent lawsuit.

Representative Pickens stated she would not discuss the subject of certification of the PO and SRO at this time, but that she and Representative Schottel would meet pertaining to that subject.

GENERAL DISCUSSION

FUNDING ISSUES

Ms. Carter stated she and Ms. Lander reviewed all the applications and all of the budgets, made a number of phone calls to ascertain the figures were correct, and made some modifications to those figures. She noted some figures were increased and some decreased from the requested amounts, but the figures will meet the expenditures of the enhanced programs for the SRO, the needs of the school and make certain a juvenile online tracking system (JOLT) is in place.

Ms. Carter said the total money necessary for the renewal grant programs is \$7,325,890 as noted on the last page of her handout entitled "Renewal Awards for FY 2000 Safe Schools Program" (Attachment A). She said the preceding pages indicate the existing school districts

and their requests and the FY 2000 grant awards. Ms. Carter stated this is an accurate budget to represent the schools' needs.

Mr. Gutier noted the front page has some typographical errors in Agua Fria and Cartwright districts. He asked if the proper numbers had been included in the total. Ms. Lander assured him that the correct figures had been used, and the \$7.3 million included those numbers. Ms. Carter said she had calculated the figures twice as had Ms. Lander to ensure the math was correct.

Senator Smith asked for an explanation of JOLT for the newer members of the panel. Ms. Carter explained it is a juvenile online tracking system which lists each one of the juveniles referred to a particular probation department and that juvenile's history. She said it is a crime reporting system and information may be accessed by various departments. Each county has its own JOLT, and the duty officer can dial in from a remote site to obtain information on any juvenile in the system. Ms. Carter stated that is important because he may be stationed at a school site several miles from the juvenile court center. That officer can also obtain psychological information.

Senator Smith clarified that the basic funding of the School Safety Program includes an SRO or a PO, a JOLT system and training in the basics of the program. Any other issues were subject to debate. Senator Smith said he feels the JOLT system is a necessary component of the PO's work with a school.

Senator Lopez clarified the funding for the program has reached \$7 million, and that new programs were able to be funded through an excess of funds last year, so the total for this program is now \$7.5 million. He indicated that legislation may be necessary to fund the new districts at that level, and an additional appropriation will be required. Senator Smith commented that he felt the program should be continually increased, and that he intends to request an appropriation next session. Senator Lopez said he agrees that should be done and was making everyone aware of it so that it could be supported during the next session.

Representative Pickens said she felt the available money would only cover the renewal of the districts, and that an additional \$4 million would be necessary for expansion. Senator Smith said he would request as much as he could to fund additional schools.

Representative Pickens noted the new list included several charter schools. Ms. Carter stated that there were a number of charter schools among the new applicants. However, when she and Ms. Lander reviewed all the needs of the schools, the charter schools rated very low, and some expenditures could not be justified at all. She said the needs were prioritized according to the top eight. Ms. Carter said when a charter school has only 100 students and no recorded incidents of violence and is requesting a full-time PO, the request of a school with 900 to 1,000 students and a history of violence will take precedence.

Senator Smith stated that anyone can apply for the program, and it is up to the Committee to determine whether they will be included, and it depends on the number of incidents that school has reported.

Ms. Carter noted that some charter schools cater to juvenile delinquents and in that case, have their own PO on campus. She said to assign another PO to such a school would overlap the responsibilities, and there are other campuses in greater need.

Mr. Gutier said when looking at the different school districts slated for expansion, he found some schools were not considered. He asked if schools on the program, which had no incidents for the last few years, were considered for removal of the SRO, and if schools that had problems were added. He asked how the evaluation was performed.

Ms. Carter replied that the Committee cannot remove a school from the program because it has had no incidents for a year. The officer's presence at the school is what keeps the school safe. Ms. Carter added the Committee has made a commitment to the police agency, the probation agency and the school to work as a team. She said she and Ms. Lander had selected new districts for this funding, districts which have never had an SRO or PO. She noted there were 22 districts that requested expansions as well as a renewal.

Senator Smith said the Committee must get approval for the recommended grant awards for FY 2000.

Senator Lopez moved the School Safety Program Oversight Committee approve the recommended Renewal Awards for FY 2000. Mr. Gutier seconded the motion. The motion CARRIED by voice vote.

Ms. Carter called attention to a typographical error in the Cartwright Elementary District 2000 Award entry. She stated the full amount should be \$290,511, not \$4,964 as written.

Senator Lopez moved the School Safety Program Oversight Committee approve the recommended New Districts for FY 2000.

Ms. Carter explained that if the unexpended 1998 funds were utilized for the new site grants, and the first four requests were granted, that would use \$155,090, bringing the total recommended allocation to \$7,500,980. She noted that would leave a balance of \$10,429 in the Safe Schools Program funding.

Senator Smith clarified that Gila Bend, Mayer, Winslow Unified and Ganado Unified districts can be added to the allocations and the program will still be within its budget.

Representative Pickens questioned what happens if there is no surplus funding and only the \$7 million basic grant is available. She wondered if those added last would be the first cut from the program if cuts have to be made. Senator Smith stated he would rather wait until

next year and see if additional funding can be passed through the Legislature. He said he prefers to wait until next year, analyze the requests and available monies, and determine what must be done at that time.

Mr. Gutier seconded Senator Lopez' motion to accept the recommended allocation for new school grants. The motion CARRIED by voice vote.

Senator Smith questioned when the schools would be notified they are receiving a grant. Ms. Lander stated the letter needs to go out as soon as possible. She noted a subcommittee was working on a Memorandum of Understanding (MOU) to accompany the letter, and it will go out as soon as the subcommittee has given her the MOU.

Senator Smith asked if the Criteria Development sub-committee has met. Ms. Carter replied it has not, since Detective Morrow has been out of town. She had faxed her statement on the role of a PO to him. Detective Morrow stated he had developed some basic responsibilities of the SRO so that it could be incorporated to go with the letter regarding funding.

Senator Smith declared a recess to enable Detective Morrow and Ms. Carter to meet and coordinate their ideas on the responsibilities of the PO and SRO.

The meeting RECESSED at 10:35 a.m.

* * * * *

Senator Smith RECONVENED the meeting at 10:55 a.m.

Senator Smith noted the documents are titled "Duties and Responsibilities School Resource Officer" (Attachment B) and "Role of the Safe Schools Probation Officer" (Attachment C), and suggested they be titled the same: "Duties and Responsibilities of the Safe Schools Probation Officer" and "Duties and Responsibilities of the Safe Schools Resource Officer." He asked the Committee to study the two documents.

Detective Morrow said he believes the ADE has vocational certificates available to people who have spent a certain length of time in a vocation. He did not feel certification for the POs is as difficult because they must have a degree to work in the probation field. Detective Morrow stated that police officers are not required to have a degree, but could be certified in vocational education as a teacher. He feels that one of the most important things for an SRO is to become a Peace Officers Standards Training (P.O.S.T.) certified instructor, where he is taught how to teach, and enables that officer to teach in police academies. He felt that would be an integral part of this because it will give them background in teaching. Detective Morrow said he listed that as number one on the SRO duties.

Ms. Carter stated that many of the POs have Bachelor's and Master's degrees and are certified teachers. They can become certified through the ADE with the level of education they have.

Senator Smith stated he is familiar with P.O.S.T. certification, and he feels it is very good. He noted that some SROs are being used as truant officers, and wondered if a statement could be included to allow flexibility for use of that officer. Senator Smith asked if the wording "at a minimum" could be added to "perform the following tasks." Detective Morrow said he did not have a problem with adding that because he felt the items listed are minimum requirements. The Committee decided to add the words "including, but not limited to:" after "perform the following tasks."

Senator Smith said many of the schools have a unique situation and the SRO can help in the overall effectiveness of the conduct of the students within a school and that should be identified. Mr. Gutier said during discussions at the last meeting on the Program Evaluation, he remembered a discussion about looking at truancy as an item on the program evaluation form.

Ms. Carter recommended adding the essential function of "teaching or assist in the teaching of law-related education." She explained many schools are not teaching LRE, but are using the officers to teach D.A.R.E. It has been proven that LRE is beneficial. Senator Smith suggested changing the word "classes" at the end of item 6 on the "Duties and Responsibilities of the SRO" to "education." Ms. Carter said that an item 13 should be added to the PO duties regarding teaching LRE on the campus. Discussion followed on the number of hours spent teaching Law-Related Education, and it was felt a minimum of 10 hours was necessary. In areas where there are both a PO and an SRO, the minimum hours could be split between the two. Detective Morrow cautioned against that because the SRO may decide to let the PO do the teaching while he enforces the law. He said that is why he put number six on the SRO duties.

Ms. Carter stated that normally schools with both a PO and an SRO have 2,000 students, and she felt both the PO and the SRO should be required to spend a minimum of ten hours a week in the classroom. In answer to Senator Smith, Ms. Carter stated there is extensive curriculum in law-related education, which would keep both the PO and SRO busy throughout the school year. Detective Morrow added using the number two SRO requirement, if the officer taught in just English classes, and there were 20 to 30 English classes, that would keep the officer busy all year. Senator Smith recapped that the SRO would spend a minimum of 10 hours a week teaching law-related education, and the same statement will be added to the duties of a PO.

Ms. Carter further recommended adding to number 11 the words "who are on probation or pending diversion consequences." Senator Smith emphasized the SRO are not to be enforcing officers and are not there to arrest students. Detective Morrow stated that was the reason for adding number four to the SRO duties, where it says "assist" with enforcement.

Ms. Lander noted there is a State statute that requires schools districts to have safe school plans. Those plans are process plans that allow schools to handle any type of crisis, manmade or natural. She said that the school safety team should include the SRO or the PO, and that if a school has both, at least one should be represented. Senator Lopez wondered if that would require a legislative change. Senator Smith commented there is nothing that prevents them from being a member of that team now. Ms. Lander stated she is trying to make sure that they are part of the team if the program is funded at that school. The officers should be involved in the process planning. Ms. Pickens asked if it was necessary to be a member, and Ms. Lander stressed it is important for them to be a member.

Ms. Lander said the Attorney General for Education has just determined that schools are covered under the Emergency Management statutes. Senator Smith felt this could be included in the School Safety Plan instructions by recommending if a campus has a school safety plan, the SRO or PO should be a part of that team.

Detective Morrow noted that Ms. Carter has a draft of a letter to accompany the duties and responsibilities of the SRO and PO. Ms. Carter said the letter would be typed and given to Ms. Lander. She noted the letter would inform the school that it has been selected for a Safe School grant, and that an SRO or PO is part of the safe school team. The value of that position would be stressed, and the expectations of use of the SRO and PO would be attached. She said there would also be attached a list of what is not acceptable use of the SRO or PO. Ms. Carter said there would be a statement telling them if they are in agreement with the use of the PO or SRO, then they could sign the MOU and return it to Ms. Lander. If they are not in agreement with the usage of the SRO or PO, then have the option to decline the grant. The MOU would also be included.

Senator Smith commented that he always wants to keep paperwork down to a minimum, but each year it is increased because of the 10% of the people who cannot follow directions and use the PO and SRO properly.

Senator Smith said that when all the final forms are developed, each member of the Committee should receive copies. The members will be given 24 hours to express their dislike about any form, and should call him with any suggestions. After everyone is in agreement, the packets will be sent to the schools.

Ms. Lander suggested that the letter advising the schools they have been accepted for a grant should come from Senator Smith's office under the signatures of the Cochair. Ms. Yee recommended a formal vote on the concept of the letter in advance.

Senator Lopez moved the Committee accept the conceptual draft of the letters that will be sent with the grant. The motion CARRIED by voice vote.

Senator Lopez mentioned an issue that should be considered by the Committee. He stated that some schools have provided a synopsis of their programs, and that each school should provide something similar. That will enable other districts to study the programs and perhaps utilize part of another program. Senator Smith noted that idea had been discussed in the form of a newsletter at the last meeting. He felt that newsletter could be circulated to the other schools to provide them with the information about other programs, and that it is an excellent idea. He said that he and Senator Lopez will work on developing that project.

There being no further business the meeting was adjourned at 11:30 a.m.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Karen Neuberg".

Karen Neuberg
Committee Secretary

(Tapes and attachments on file in the Secretary of the Senate's Office.)

DUTIES AND RESPONSIBILITIES SCHOOL RESOURCE OFFICER

Legislation was passed in 1994 establishing the ARIZONA SAFE SCHOOLS PROGRAM. The program provides school districts with funds to furnish police officers/probation officers on the school campus to help give the students a safe learning environment. In order to do that the police officer on the school grounds must encompass and is more than an additional security officer. The police officer gives an opportunity for the public safety and safe learning environment but also gives the police the opportunity for students to see first hand the officer and have questions answered concerning the law/law enforcement and how it could affect them as juveniles and adults. In order to accomplish this task the SCHOOL RESOURCE OFFICER must have the following characteristics and perform the following tasks.

1. Become a P.O.S.T. certified instructor (Peace Officers Standards and Training)
2. Develop law enforcement related classes that can be taught in the classroom
 - a) In English classes the officer could teach observation (witness) and report writing
 - b) In math classes accident investigation using math formulas
 - c) In Government classes Constitutional Law and how it relates to crime and criminals
 - d) Peer mediation classes in problem solving without violence
 - e) Drug awareness classes
3. Council with students in areas of law enforcement, legal issues, and law related areas the officer has expertise
4. Assist with enforcement and crime related issues on the campus (not be the primary crime solver on campus)
5. From a law related perspective teach good citizenship and community responsibility
6. Spend a minimum 10 hours a week in the classroom teaching law related classes

ROLE OF THE SAFE SCHOOLS PROBATION OFFICER

A Probation Officer who is selected to participate in the Safe Schools program is multifaceted individual who has the ability to function not only as a Juvenile Probation Officer with full knowledge and understanding of the Probation and Court Process, but also as a school liaison with an understanding of the concepts associated with prevention and intervention of juvenile delinquency.

A Safe Schools PO must have the ability to interact and communicate with diverse set of individuals on a school campus and relay an understanding to those school professional and the students alike a true interest in attempting to assist children become skilled and productive community members.

While the working job title is Community Services Probation Officer, the job is also that as a teacher, mentor and role model to each student.

PURPOSE OF THE POSITION:

The essential functions of the assignment are:

1. Ability to physically maintain an assignment on a school campus and meet the physical and emotional demands of the assignment. This includes having exceptional health due to the need of having the PO on campus daily during the school sessions.
2. Ability to act as a school liaison between the school and court.
3. Have the ability to work with children and perform classroom instruction in subjects relating to the law, specifically, Law Related Education.
4. Collect, analyze and compile information to inform the court and to devise programs to meet the needs of the students on the campus.
5. Have the knowledge and communication skills to understand the court process and available services and verbally relate the information to school personnel, parents, students and any community member.
6. Have the ability to network with other agencies that may or can service the school community to meet the needs of the student and school.

PROTOCOL - SAFE SCHOOL PO
PAGE 2

7. Have a working knowledge of services available both within the court system and the community to meet the needs of the student and school.
8. Compile information as to campus behavior and PO campus activities.
9. Supervise those particular cases who may be on Probation.
10. Act as diversion officer in dealing with first or second offense juveniles and working the youth through the Diversion process.
11. Monitor compliance and non-compliance of the students on the campus.
12. Have an understanding and ability to work with victims of crime associated with the school and students.

→ 13. Teaching Unrelated
The Safe Schools PO must have the ability to support and contribute to both the Juvenile Probation Department but also the school and the community.

The Safe Schools PO must enjoy working with children and directing them to a productive life style within the community.

Arizona State Legislature

Interim Meeting Notice

Open to the Public

School Safety Program Oversight Committee

Date: July 6, 1999

Time: 10 a.m.

Place: Senate Hearing Room 1

AGENDA

- 10:05 AM*
1. Introductory Remarks
 - Co-Chairs Senator Tom Smith and Representative Dan Schottel
 2. General Discussion
 - Funding Issues
 - Information Sharing of Innovative Programs
 3. Reports by Sub-Committees
 - Program Evaluation (Alberto Gutier, Janet Lander)
 - Criteria Development (Stan Morrow, Hellen Carter)
 - Application Evaluation (Janet Lander, Hellen Carter)
 4. Application Review and Committee Vote
 5. Schedule Future Meeting(s), if necessary.

MEMBERS:

Senator Tom Smith, Co-Chair *p*
Representative Dan Schottel, Co-Chair *p*
Senator Joe Eddie Lopez, Advisory Member *p*
Representative Marion Pickens, Advisory Member *p*
Hellen Carter, Maricopa County Juvenile Probation Department *p*
Alberto Gutier, Governor's Designee *p*
Janet Lander, Arizona Department of Education, Superintendent's Designee *p*
Stan Morrow, CID, City of Mesa *p*
William Udall, Governor's Designee from the field of law-related education *p*
(Vacant) Public School Principal, Superintendent's Designee

ARIZONA STATE LEGISLATURE
SCHOOL SAFETY PROGRAM OVERSIGHT COMMITTEE

Minutes of the Meeting
Monday, July 12, 1999
2:00 p.m.
Senate Hearing Room #1

Members Present:

Senator Tom Smith, Cochair
Hellen Carter
Janet Lander

Representative Marion Pickens
Alberto Gutier

Members Excused:

Senator Joe Eddie Lopez
Stan Morrow

Representative Dan Schottel, Cochair
William Udall

Staff:

Kimberly Yee, Senate Research Analyst

Senator Smith called the meeting to order at 2:05 p.m.

Introductory Remarks

Senator Smith expressed his desire to have all documents for all future meetings in the hands of the Committee members at least 24 hours in advance. He added that 48 hours would be even better so that time is not lost reading documents during the meeting.

Reconsideration and Vote on Safe Schools Program Awards FY 2000

Ms. Lander apologized to the Committee for the revisions which had to be made to the Renewal Awards list distributed last meeting. She stated the numbers were correct on her worksheets, but that some of them were transposed when entered into the chart. She reviewed the changes, as listed on the cover page to the grant list (Attachment A), and added that the "bottom figure" was correct.

Senator Smith clarified that the corrections were necessary because of a transposition in the numbers, but that nothing affected the \$10,000+ balance in the School Safety Grant fund, and that the four districts which were added for new grants will receive their money. Ms. Lander confirmed that.

Senator Smith called for a motion to accept the revisions to the Safe Schools Award grants for FY 2000. Ms. Yee suggested that a correction to the date at the bottom of page 1 be made to reflect today's date (July 12, 1999).

Mr. Gutier moved the School Safety Program Oversight Committee accept the revisions to the Renewal Award for FY 2000 based on the numbers provided to the Committee. He further moved that the date be changed from 8/18/97 to 7/12/99. Ms. Carter seconded the motion. The motion CARRIED by voice vote.

Committee Consideration and Vote on Award Memorandum of Understanding

Ms. Carter explained the modifications to the new handout regarding the Duties and Responsibilities of the Probation Office (PO) (Attachment B). She noted the handout regarding the Police Officer's duties and responsibilities will stand as written.

Ms. Carter recommended that articles 9, 10 and 11 be deleted on page two of the handout because article two on page one gives the PO the ability to act as the school liaison to the court, and that "including field and diversion probation officers" should be added to that. Senator Smith requested that staff type a corrected version of the Responsibilities and Duties of the Safe Schools Probation Officer and send it to each member of the Committee. He then suggested the Committee take a few minutes to read this document.

Mr. Gutier asked if the handout was the same as the one which was faxed to the members. Ms. Yee responded that the blue copy labeled "Duties and Responsibilities of the Safe Schools Probation Officers and School Resource Officers" (Attachment C) was the one which was faxed, and that the changes suggested today by Ms. Carter would be incorporated into the blue copy.

In response to Representative Pickens, Ms. Carter stated that articles 9, 10 and 11 allowed for supervision of cases on probation, which should be an individual agency's decision. She noted that some schools do not want POs to carry case loads because it takes them off the school campus. She added that by including the field and diversion officers to act as a school liaison between the school and court, it gives the agency and the school an option to have the officer work with those children on probation at that school. However, it would be a school choice rather than being dictated through this document.

Discussion continued on changes to the document, particularly to paragraph four of the description of a PO. Ms. Lander also suggested changing the word "children" to "students" throughout the document. Senator Smith suggested eliminating some sentences to avoid confusion. Some revision was done to the third paragraph. These changes will be typed up and distributed to the Committee. Senator Smith stated he

would accept a motion to approve the document with the understanding that Ms. Yee will meet with Janet Lander and Hellen Carter to make the necessary technical corrections.

Ms. Carter moved that the School Safety Program Oversight Committee approve the Duties and Responsibilities of the Safe School Probation Officer and the purpose of the position be modified as recommended, and that the wording in the top five paragraphs will be technically corrected by Ms. Lander, Ms. Carter and Ms. Yee. Mr. Gutier seconded the motion. The motion CARRIED by voice vote.

Representative Pickens questioned the Duties and Responsibilities of the School Resource Officer (SRO) (contained in Attachment C), and stated she wants to be sure both documents are in agreement. Ms. Lander recommended some grammatical changes, including changing the word "children" to "students." The word "additional" was removed in line 2 in the last paragraph of page two entitled "School Resource Officers." The word "education" was added in item five on page three after the words "law-related." Senator Smith said the primary responsibility of an SRO is to provide a safe learning environment, and that should be the first sentence of the introduction to an SRO. He called for a motion to accept those changes.

Ms. Lander moved that the School Safety Program Oversight Committee approve the Duties and Responsibilities of the Safe School Resource Officer and the purpose of the position be modified as recommended, and that the wording will be technically corrected by Ms. Lander, Ms. Carter and Ms. Yee. Mr. Gutier seconded the motion. The motion CARRIED by voice vote.

The letter which will accompany the grant (Attachment D) was discussed. Senator Smith suggested that the words "if you have any questions, please call (telephone number)" be added. Ms. Lander stated that a cover letter from the Arizona Department of Education (ADE) is also going out with the packet to provide information about the budget and how the grants are paid. Further discussion was held and minor changes were made to the letter.

Senator Smith clarified that the letter telling the school it has been awarded a grant (Attachment D) will be accompanied by the document entitled the "Duties and Responsibilities of the Safe Schools Probation Officers and School Resource Officers" which will incorporate the changes and technical corrections determined today. The packet will also include the letter from the ADE, and the Memorandum of Understanding for Award of an SRO and a PO (Attachment E). Ms. Lander clarified that a packet will be sent to each site in the district. Representative Pickens said she feels the list of what is not acceptable for the expenditures of funds for a PO or SRO program should definitely be included.

Paul Kosierowski, Regional Administrator, Arizona Department of Corrections, Juvenile Justice Services Division, had submitted a slip to speak, but stated his concerns had been addressed and he no longer needed to speak to the Committee.

Senator Smith recapped the accomplishments of the Committee meeting. He reasserted his desire to have all materials distributed to the Committee 24 to 48 hours in advance of the meeting.

Ms. Carter moved the School Safety Program Oversight Committee approve the letter to accompany the grant award and the Memorandum of Understanding and that technical changes will be determined in a meeting between Ms. Yee, Ms. Lander and Ms. Carter. The motion CARRIED by voice vote.

Senator Smith questioned when the revisions would be completed and the letters sent out. Ms. Lander said the letters should arrive at the schools no later than the end of July. She noted that the letters need to be personalized because there are issues in each school's application which must be addressed individually, and she will also be out of town from the 18th through the 24th of July. She said she will endeavor to have them all in the mail before she leaves, but there may be some who are not mailed out. Ms. Carter stated that most schools close for the month of July and resume on August 2nd and that the letters will be there when the school reopens.

Some discussion was held on meeting earlier in the year next year and endeavoring to get the process underway faster.

There being no further business, the meeting adjourned at 2:50 p.m.

Respectfully submitted,

Karen Neuberg
Committee Secretary

(Tape and attachments on file in the Secretary of the Senate's Office.)

REVISIONS TO THE FY2000 RENEWAL AWARDS

1. Kingman listed twice at \$79,827
2. Osborn has 3 POs not 2
3. Round Valley award is \$80, 503 not \$80, 502
4. Show Low Unified award is \$90,752 not \$90, 000
5. Sunnyside listed twice at \$113,051
6. Tempe UHS award is \$83,636 not \$86,636

**DUTIES AND RESPONSIBILITIES
SAFE SCHOOLS PROBATION OFFICER**

The Safe Schools PO must have the ability to support and contribute to ~~both~~ the Juvenile Probation Department, ~~but also~~ the school and the community.

The Safe Schools PO must enjoy working with ^{Students} children and directing them to a productive life style within the community.

A Probation Officer who is selected to participate in the Safe Schools program is ~~a multifaceted individual who~~ has the ability to function not ~~only~~ as a Juvenile Probation Officer with full knowledge and understanding of the Probation and Court Processes, ~~but also as a school liaison with an understanding of the concepts associated with prevention and intervention of juvenile delinquency.~~

A Safe Schools PO must have the ability to interact and communicate with a diverse set of individuals on a school campus and relay an understanding to those school professionals and the students alike a true interest in attempting to assist children in becoming skilled and productive community members. ^{Students}

While the working job title is Safe Schools Probation Officer, the job is also that as a teacher, mentor and role model to each student.

PURPOSE OF THE POSITION:

The essential functions of the assignment are:

1. Ability to physically maintain an assignment on a school campus and meet the physical and emotional demands of the assignment. This includes having exceptional health due to the need of having the PO on campus daily during the school sessions.
2. Ability to act as a school liaison between the school and court.
3. Have the ability to work with ^{Students} children and perform classroom instruction in subjects relating to the law, specifically, Law Related Education.
4. Collect, analyze and compile information to inform the court and to devise programs to meet the needs of the students on the campus.

task, the School Resource Officer (SRO) must have special characteristics and perform specific tasks including, but not limited to:

1. Becoming a Peace Officers Standards and Training (P.O.S.T.) certified instructor
2. Developing Law Related Education classes to be taught in the classroom, such as:
 - a) Teaching observation (witness) and report writing in English classes
 - b) Teaching accident investigation in math classes using math formulas
 - c) Teaching Constitutional Law in government classes and how it relates to crime and criminals
 - d) Teaching problem solving without violence in peer mediation classes
 - e) Teaching drug awareness
3. Counseling with students in areas of law enforcement, legal issues and law related areas in which the officer has expertise
4. Assisting with enforcement and crime-related issues on the campus (rather than being the primary crime solver on campus)
5. Teaching good citizenship and community responsibility from a law-related perspective
education
6. Spending a minimum of ten hours a week teaching Law Related Education in the classroom

The Safe Schools Probation Officers and School Resource Officers must also enjoy working with children to direct them toward establishing productive lifestyles within the community.

Duties and Responsibilities of the Safe Schools Probation Officers and School Resource Officers

Legislation was passed in 1994 establishing the Arizona Safe Schools Program. The program provides school districts with funds to place school resource officers (SROs) and/or probation officers (POs) on the school campus to help provide students with a safe learning environment.

PROBATION OFFICERS

A Probation Officer (PO) who is selected to participate in the Safe Schools Program must be a multifaceted individual. The PO should have the ability to function, not only as a Juvenile PO with full knowledge and understanding of the Probation and Court Process, but also as a school liaison with an understanding of the concepts associated with prevention and intervention of juvenile delinquency. A Safe School PO must have the ability to interact and communicate with the diverse types of students on a school campus. The PO must relay an understanding to both school professionals and students of their genuine interest and attempt to assist children in becoming skilled and productive members of the community. While the working job title is Community Services Probation Officer, the job also includes being a teacher, mentor and role model to each student. In order to accomplish these tasks, the PO must possess special characteristics and perform specific tasks including, but not limited to:

1. Possessing the ability to physically maintain an assignment on a school campus and meet the physical and emotional demands of the assignment. This includes having exceptional health due to the need for having a PO on campus daily while school is in session
2. Possessing the ability to act as a school liaison between the school and the Courts
3. Possessing the ability to work with children and perform classroom instruction in subjects relating to the law, specifically, Law-Related Education

task, the School Resource Officer (SRO) must have special characteristics and perform specific tasks including, but not limited to:

1. Becoming a Peace Officers Standards and Training (P.O.S.T.) certified instructor
2. Developing Law Related Education classes to be taught in the classroom, such as:
 - a) Teaching observation (witness) and report writing in English classes
 - b) Teaching accident investigation in math classes using math formulas
 - c) Teaching Constitutional Law in government classes and how it relates to crime and criminals
 - d) Teaching problem solving without violence in peer mediation classes
 - e) Teaching drug awareness
3. Counseling with students in areas of law enforcement, legal issues and law related areas in which the officer has expertise
4. Assisting with enforcement and crime-related issues on the campus (rather than being the primary crime solver on campus)
5. Teaching good citizenship and community responsibility from a law-related perspective
education
6. Spending a minimum of ten hours a week teaching Law Related Education in the classroom

The Safe Schools Probation Officers and School Resource Officers must also enjoy working with children to direct them toward establishing productive lifestyles within the community.

Arizona State Legislature

1700 West Washington

Phoenix, Arizona 85007

Dear _____:

You have been awarded a Safe Schools Grant for a Safe School Probation Officer (SSPO) and/or Safe School Resource Officer (SSRO) for fiscal year 2000.

A SSPO/SSRO is a part of your Safe Schools team. The SSPO/SSRO position is a valuable part of your school if used in an effective manner. There are certain requirements and recommendations for use of the SSPO or SSRO.

Attached are the expectations and recommendations for use of the SSPO and SSRO as funded by the Safe Schools Grant and administered by the Department of Education. Also attached is a list of what is not acceptable for use of the SSPO and SSRO.

Please make a decision as to your willingness to utilize the SSPO and/or SSRO as stipulated and recommended by the grant requirements. If you do not feel you can use the SSPO or SSRO as directed by the grant criteria, you may decline the use of the funds for fiscal year 2000.

If you agree to use the SSPO or SSRO as indicated, please sign the enclosed agreement. If you are unable to utilize the officers as recommended by the grant criteria, please check the decline box on the attached form.

Please return the attached form to:

Janet Lander
Arizona Department of Education
1535 W. Jefferson St.
Phoenix, AZ 85007
Phone: (602) 542-8717
Fax: (602) 542-3818

Sincerely,

Tom Smith
State Senator, District 26

Dan Schottel
State Representative, District 12

Attachment: D

**Safe Schools Program
Memorandum of Understanding
For Award of SSPO and/or SSRO**

The School District of _____ agrees to abide by the stipulated requirements and recommendations for use of the Safe School Probation Officer and/or Safe School Resource Officer as funded by the Safe Schools Grant and administered by the Department of Education for fiscal year 2000.

Superintendent

Principal

☐

We decline the Safe Schools Grant for fiscal year 2000.

Arizona State Legislature
